If inhaled Move to fresh air. : Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician. If breathing is irregular or stopped, administer artificial respiration. In case of skin contact Wash off immediately with soap and plenty of water. • Do NOT use solvents or thinners. If on clothes, remove clothes. Burns must be treated by a physician. In case of eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist. If easy to do, remove contact lens, if worn. If swallowed Do NOT induce vomiting. If a person vomits when lying on his back, place him in the recovery position. Call a physician immediately. Give small amounts of water to drink. 4.2 Most important symptoms and effects, both acute and delayed Symptoms • Burn superficial burning sensation Redness Severe irritation
